

## **PROFESSIONAL STAFFING ANNOUNCEMENT**

### **3TIER Senior Scientist / Engineer** **Location: New Delhi / Gurgaon, India**

**3TIER**, a private provider of real-time forecast and assessment products for the renewable energy industry, invites applications for a full-time senior scientist/engineer for its office in India. We seek a highly motivated individual who will provide leadership in the development of renewable energy forecasting and assessment technologies and products for the Indian market. Strong technical credentials, experience in the weather-driven renewable energy sector and proven leadership skills are essential. The candidate must be highly motivated, responsible, and have the ability to take multiple projects from inception to completion with limited supervision.

We are looking for candidates with experience in one or more of the following areas of specialization and their application in the weather-driven, renewable energy sector (wind energy, hydropower, and solar energy):

- Meteorology or climatology
- Hydrology or water resources management
- Power systems engineering

Applicants should highlight their experience and background in the above listed areas in their cover letter and CV. The position will require occasional travel throughout India to work with clients and occasional travel to the United States to coordinate with scientists and engineer in 3TIER's Seattle office.

#### **Required skills:**

- Masters degree in Engineering, Earth Sciences, or other related discipline
- 5+ years post-college experience in the renewable energy sector
- Experience working in a customer-oriented environment
- Strong quantitative skills
- Experience working in a UNIX/Linux computing environment
- Excellent written and verbal communication skills
- Fluent in English, both spoken and written

#### **Preferred skills:**

- PhD in Engineering, Earth Sciences, Geography, or other related discipline
- Minimum of three years of small team management experience

**Pay, Benefits, and Work Schedule:**

3TIER offers a competitive salary and benefits package and actively supports professional development activities.

**Application Requirements:**

Please send a cover letter and resume, in Word or PDF format, directly to 3TIER at [careers-as@3tiergroup.com](mailto:careers-as@3tiergroup.com) with the subject heading "Senior Scientist". Names and contact information for one personal and three professional references to be provided upon request.

**About 3TIER:**

3TIER provides wind, solar and hydro resource assessment and operational forecasting products and services to renewable energy organizations worldwide. Founded in 1999, 3TIER is the largest provider of these services in North America and currently forecasts for one-third of all operational wind energy projects on the North American continent. For more information, visit [www.3tiergroup.com](http://www.3tiergroup.com).

**Equal Opportunity Employer:**

3TIER is an equal opportunity employer, committed to workforce diversity.
